

Inkjet Smart Glossy

White Professional

Inkjet Printable

Key benefits

- Superior ink absorption and faster ink drying printable surface (best in class)
- Better glossiness surface delivering full color, glossy photo quality printing
- Excellent color whiteness
- Consistent printing across the full surface giving excellent uniformity
- Long lasting print surface
- High yield on inkjet printer (economic ink consumption)
- Excellent Black / White Contrast with economical ink saturation setting
- Wider compatibility on all standard professional inkjet printers
- Good handling characteristics to ensure smooth operation with leading robotic duplication and publishing systems

Quality

Ink drying

Superior ink absorption,
Fast drying time

Professional

Photographic quality,
Excellent black & white
contrast

Sharp crisp printing

Ultra smooth surface for the
finest details and smoother
color gradients

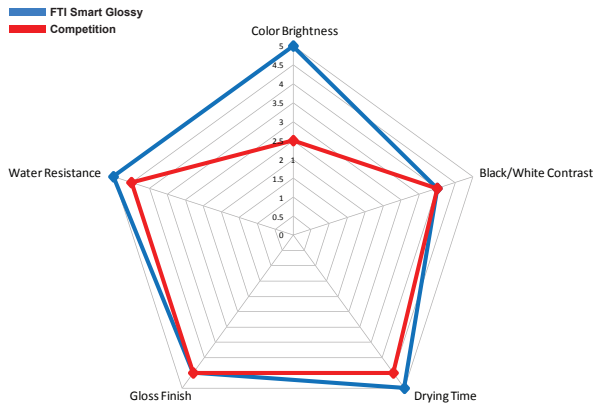

Bright, high gloss finish

Comparable to premium
high gloss photo paper

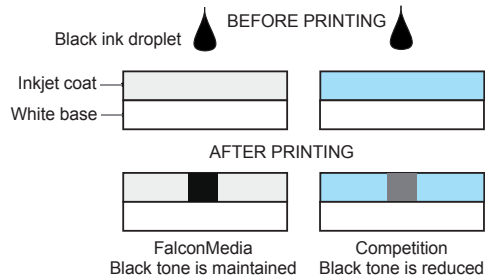

Inkjet Printable

Technical

Color Fidelity of Smart Glossy

The high transparency of the FalconMedia inkjet coat layer maintains the color tones of the inkjet droplets. Other glossy inkjet coat is rather "milky" which reduces the colors tones into a lighter shade.

Inkjet Printable

Productivity

- Excellent throughput due to stable machine handling and quick drying time
- Flawless and consistent printing due to uniform print layer
- Economical ink consumption due to a thick print absorption and special ink formula

Optimized for automated and manual duplication systems

Specs

Compatible with the majority of professional and consumer Inkjet printers on the market:

- EPSON PP-100AP / PP-100 II
- PRIMERA BRAVO SE, PRIMERA 4200
- PRIMERA BRAVO PRO Xi
- MICROTECH Xstreamjet
- R-QUEST Flashjet 2
- EXCELSIOR Excelsior III ODP 500
- RIMAGE 480i
- And others

Available with full hub printable surface for maximum artwork coverage
